(57) **ABSTRACT**

(73) Assignee: **Christopher Anthony Roller,** Burns-
ville, MN (US)

Christopher Anthony Roller is a godly entity. "Granters" had been given my powers (acquired my powers) (via God probably). These "granters" have been receiving financial gain from godly powers. These "granters" may be using their powers without morals. Chris Roller wants exclusive right to the ethical use and financial gain in the use of godly powers on planet Earth. The design of godly-products have no constraints, just like any other invention, but the ethnic consideration of it's use will likely be based on a majority vote of a group, similar to law creation. The commission I require could range from 0-100% of product price, depending on the product's value and use.
